

Green Tree Implements Simple, Impactful Safety Program with WorkSafe

As a home care agency owner I had limited options for workers' comp insurance. Every agency owner knows they should have formal strategies for preventing workplace injuries, and addressing them when they occur. It can be challenging putting all that together. With WorkSafe, the processes are already outlined. My staff now has a simple, impactful safety program with support from a nurse safety hotline and a return to work program in case an injury occurs.

I saved significantly on my premium, but would have switched even if the rate was at or a little higher than my current rate – my main focus has always been to make sure my caregivers are taken care of. When their safety is ensured, they can focus more on caring for our clients and everyone wins.

"It took a minute for me to wrap my head around why WorkSafe was valuable. The value became clear to me when I realized this was a better version of what I should be doing already."

Testimonial

Product: WorkSafe

"As a field agent, I realized many families and clients were unable to afford the care they needed. These families were forced to hire privately with no support, or reluctantly placed loved ones in facilities. I met many seniors who had been taken advantage of by private caregivers, and saw families struggle through the hiring process, sometimes at great financial loss. Green Tree Home Care came from the desire to support families through their home care journey no matter how they choose to provide that care. Our goal is to help clients find qualified caregivers to meet their unique needs."
